

### DESCRIPTION

Durable and solid climbing wall, equipped with a special system of holes and stones, making it easier to rest your hands and feet. The combined panels can be used for the functional development of free spaces, creating a kind of climbing corners. In order to increase the level of safety when using the wall, you should use gymnastic mattresses, which effectively protect against a possible fall on the floor. The wall is made of 15 mm birch plywood, the side frame is made of 60x40 mm pine wood. Dim.: H. 200 x W. 125 x D. 7 cm
