

FLO Table Top, width 131 cm, anthracite-maple

6513128

DESCRIPTION

The table tops in the FLO collection are made of laminated 18 mm chipboard, the edges are secured with 2 mm ABS. Solid, wooden beech legs with a diameter of 43 mm sold separately (6512534, 6512535 or 6512536). An extraordinary collection of furniture for children. Unusual shapes offer interesting arrangement possibilities and a well-thought-out design will make the interior unique. The right-left combination of cabinets will create the shape of a house and arranging them in the left-left or right-right system will magically turn the body into a mountain range! Irregular shape of the table tops allows them to be combined into unusual figures. The whole is complemented by details in the form of round black handles and milling in doors and drawers, round openings in the backs of chairs and bars, which hide several applications.
