

Feria High Storage Unit for Gratnells Containers, white

4470423BEX

DESCRIPTION

The Feria cabinet system offers many possibilities for any combination of individual furniture modules. Safe systems for closing cabinets and for removing and inserting containers do not require fixing handles, freedom in adjusting shelves and compartments. The openings in the bodies allow for individual selection of containers - they are adapted to the assembly of small, medium, large and max containers. 36 small containers fit into a small cabinet. The offer includes various heights of cabinets for containers. The Feria Houses are a perfect complement to the collection. Technical informations: cabinets bodies are made of 18 mm laminated chipboard, the back of the cabinet is made of white HDF board, openings in the cabinet allow the installation of Gratnells containers fixed sliders for leveling cabinets on uneven ground. Dim.: H. 200 x W. 105 x D. 44 cm
